

IEEE VR 2027 XR Gallery – Technical Rider

Please take some time to answer the questions as detailed as possible.

Please note that we rely on the details in this production sheet.

The way of presentation within the exhibition, as well as the production budget, will be planned based on this information – changes must be announced in time.

This document does not replace the required abstract!

Project Name	
Short technical description (Technique, material, components, operation and temporal constraints...)	
Contact email	
Contact phone (Required after accepted submission)	

General setup details

General room requirements Please describe your setup requirements. e.g.: - Minimum dimensions (L*W*H in cm) - Light/dark room - Fix something on the ground / ceiling / wall - Temperature, etc.	
---	--

Special cleaning and/or maintenance	
Tables / Pedestals Detail your needs, including desired colours and dimensions	
Setup requirements Needed time: how much time you need for the setup. Technical support: do you need any support from the XR Gallery volunteers or technicians? List how many, what for, and for how much time approximately. <i>Our goal is to prepare the space before your arrival. From that moment on, we expect artists to be as independent as possible during setup.</i> <i>The number of volunteers and technicians is limited and depends on the required need. If someone from your project team will stay with the installation, please note it here.</i>	
De-installation requirements Needed time: how much time you need for de-installation. Technical support: do you need any support from the XR Gallery volunteers or technicians? List how many, what for, and for how much time approximately.	

Technical details

Technical equipment – provided by artist. Provide a detailed list of equipment you will bring. Please be as specific as possible: PC / Video / Projection / Audio / Lighting / Cables (extension cords, power distributors, network cables). <i>Please bring all needed power converters/adapters with you(!) and specify the details here.</i>	
Technical equipment – XR Gallery to provide. Please list any equipment you would need the XR Gallery to provide. Please note that technology is limited, and we cannot guarantee we can accommodate all requests. Please be as specific as possible: PC / Video / Projection / Audio / Lighting.	
Power / Cabling / Connectivity Electrical supply (AU standard is 220V). List the number of outlets, voltage, and amps for each electrical item. List the number of extension cords, power distributors, and network cables you will need. Please estimate power consumption in watts.	

Internet connectivity Please advise what type of connectivity you require: bandwidth, static IP, Wi-Fi, cable, etc.	
Notes Any other relevant information not mentioned above.	

Additional materials

Images of work

Please provide images of the artwork that help us understand the construction.

Technical plans & drawings

Please provide plans/drawings/photos of the artwork with measurements.
